

LEONY'S STORY

Born in a province near Manila, Philippines, Leony discovered her gift at the age of seven. One of her playmates became very ill and fell into a coma. Leony went to see her and sat next to her bed. She suddenly felt an urge to place her hands on her head and pray for her well-being. When she did this, she felt a strong current of energy and her friend was immediately brought back from her coma completely well. She knew then that her mission in life was to bring healing to others.

Since becoming of legal age, Leony has devoted her life to healing those in need. She became a co-healer with the famous Filipino Miracle Man, Tony Agpaoa. During her ten years at his clinic, she became one of the primary healers and sometimes performed more than 300 healing treatments per day!

After Tony passes away, Leony was one of the primary healers at the clinic for two more years; after which time she felt the call to travel on her healing missions all over the world. Since then, countless people have experienced her extraordinary gifts.

Leony received her healing abilities from the Holy Spirit. She developed her healing techniques from the old Espiritista who lived nearby, when she was just a little girl. From her association with Tony Agpaoa, Alex Orbito, and other healers of this caliber, she has refined her healing techniques to what you can experience today.

Leony is a humble, simple and very beautiful example of what it is to spend a lifetime in the service of God. Her activities during her healing missions generally consist of meditating, healing circle prayers, individual blessings, and hands on healing. When she is not actively working, she spends time engaged in her passion -- taking care of disabled children. She loves to go shopping for toys and clothes for the little ones.

Many of those in the healing area have commented that Leony's presence and touch are those of an angel or other divine being. Nearly everyone walks away deeply moved by the power and purity for her work.
