

## LEONY TESTIMONIALS

Note: Not everyone reports outstanding results. Leony can open the spiritual/emotional/physical healing door, but we are the only ones that can walk through it. Also, it can take a series of healings or regular “check ups” to maintain the healing advances. Healing is about self-responsibility and owning/finding the power inside you! Leony uses her god-given gifts to assist in this process.

*One mother explained that her child has birth defects and severe issues with her bones. After Leony’s blessing, the doctors found she actually grew!*

Around the world, Leony’s service to children is free. There are no guarantees, but “miracle-like” events repeatedly happen.

*“For some time now, my mammograms have been coming back with questions. The doctors repeatedly ask me to recheck them and/or quickly get checked again. When Leony first began her healings with me, she noticed puss leaking out through the opening. Now, 10 healings later, as she does openings, the blood and tissue is bright red as it should be. I am so glad I caught this early.”*

*“Menopause has been difficult. One period here, one there - too many hot flashes and negative symptoms. I asked Leony for help. Now, I am glad to report I have no periods and all negative symptoms are gone, even my hot flashes!”*
